

The Sun-News Editorial Board is concerned that students might, “never be bothered by facts about global climate change,” while this editorial board has examined neither climate history nor the obvious fraud by Government “scientists” in changing surface temperature observations to cool the past and warm the present.

Let’s examine some temperatures published in journals which portray climate history:

With all of the CO2 and methane in the air today proclaimed by USA Today and the Sun News, why is this interglacial the coolest of the five interglacials in the Vostok Ice Cores: <https://en.wikipedia.org/wiki/File:Vostok-ice-core-petit.png> when it should be the warmest according to global warming theory?

Within the Holocene, the past 10-15,000 years, why is the present warm period so weak in comparison with the dozen or so warm periods of the recent past, <http://wattsupwiththat.files.wordpress.com/2013/03/gisp2-ice-core-temperatures.jpg?w=960&h=720> ?

Why were Arctic Temperatures Warmer 1000 years ago than at the present time? <https://www.clim-past-discuss.net/cp-2017-29/cp-2017-29.pdf>

Why do the data plotted in this article, <https://sci-hub.cc/http://journals.ametsoc.org/doi/abs/10.1175/JCLI-D-16-0526.1> show the present temperatures about the same as they were in the recent past?

The truth of the matter is that despite the “overwhelming consensus” of scientists about human-caused CO2-fueled Global Warming, temperatures are cyclical, the 1000-1500 year Bond Cycles are real, [http://www.essc.psu.edu/essc\\_web/seminars/spring2006/Mar1/Bond%20et%20al%202001.pdf](http://www.essc.psu.edu/essc_web/seminars/spring2006/Mar1/Bond%20et%20al%202001.pdf) , and the truth of scientific study is determined by measurements, not the proclamations of politicians or editorial boards of newspapers.

And, the original standards describing “temperature fluctuations” was closer to the truth than the premise of human-caused CO2-fueled global warming.

To the notion of fraud in surface temperature manipulations, the posts in Manhattan Contrarian, beginning with this one, <http://manhattancontrarian.com/blog/2013/7/18/what-is-the-greatest-scientific-fraud-of-all-time>, and searching for all seventeen posts on this subject will let you know more of this fraud.

We have a climate study group in Las Cruces; our web site is <http://casf.me/>

Finally, this post, <http://casf.me/wp-content/uploads/2017/07/Fraud-in-Global-Warming-Data-is-Massive-with-references-15-Jul-2017.pdf>

also shows the fraud.
