EDITORIAL: I have frequently decried the inability to think critically by many in the society who plunge headlong into the notion of ongoing climate ‘crisis’ or ‘catastrophe’.

Among those, starting locally, include: The Mayor, Town Council and County Commission  
Editors, reporters, and columnists for the Sun News  
Reporters and Columnists for the Sun News’ Corporate bosses at Gannett  
State Climatologist David W. Dubois, State Representatives and State Senators  
“Climate Czar” John Kerry, Secretary of Defense Austin, President Biden

But the lack of critical thinking is not confined to notions of weather and climate.  
It extends into many critical elements of our society.

I fear for our future when the society that defeated the Axis Powers in WW2, invented nuclear weapons, the Internet, practical and (up until now) safe propellor and jet transport, digital computers both mainframe and personal, and more, has now devolved into a society with ‘leaders’ who plagiarize (Harvard’s Claudine Gay and President Biden), Lie about funding Gain of Virus Function at the Wuhan Institute of Virology (Dr Fauci) and get wrong the notion that Hydroxychloroquine is a useful zinc ionophore (American Medical Association).

## THEY LIED TO YOU: New Study Finds People Who Took Ivermectin for COVID Recovered Faster – As TGP Reported Over Two Years Ago!

By [Jim Hoft](#) Mar. 8, 2024 11:20 am [436 Comments](#)

In December 2021, the FDA warned Americans not to use Ivermectin that “is intended for animals” to treat or prevent COVID-19.

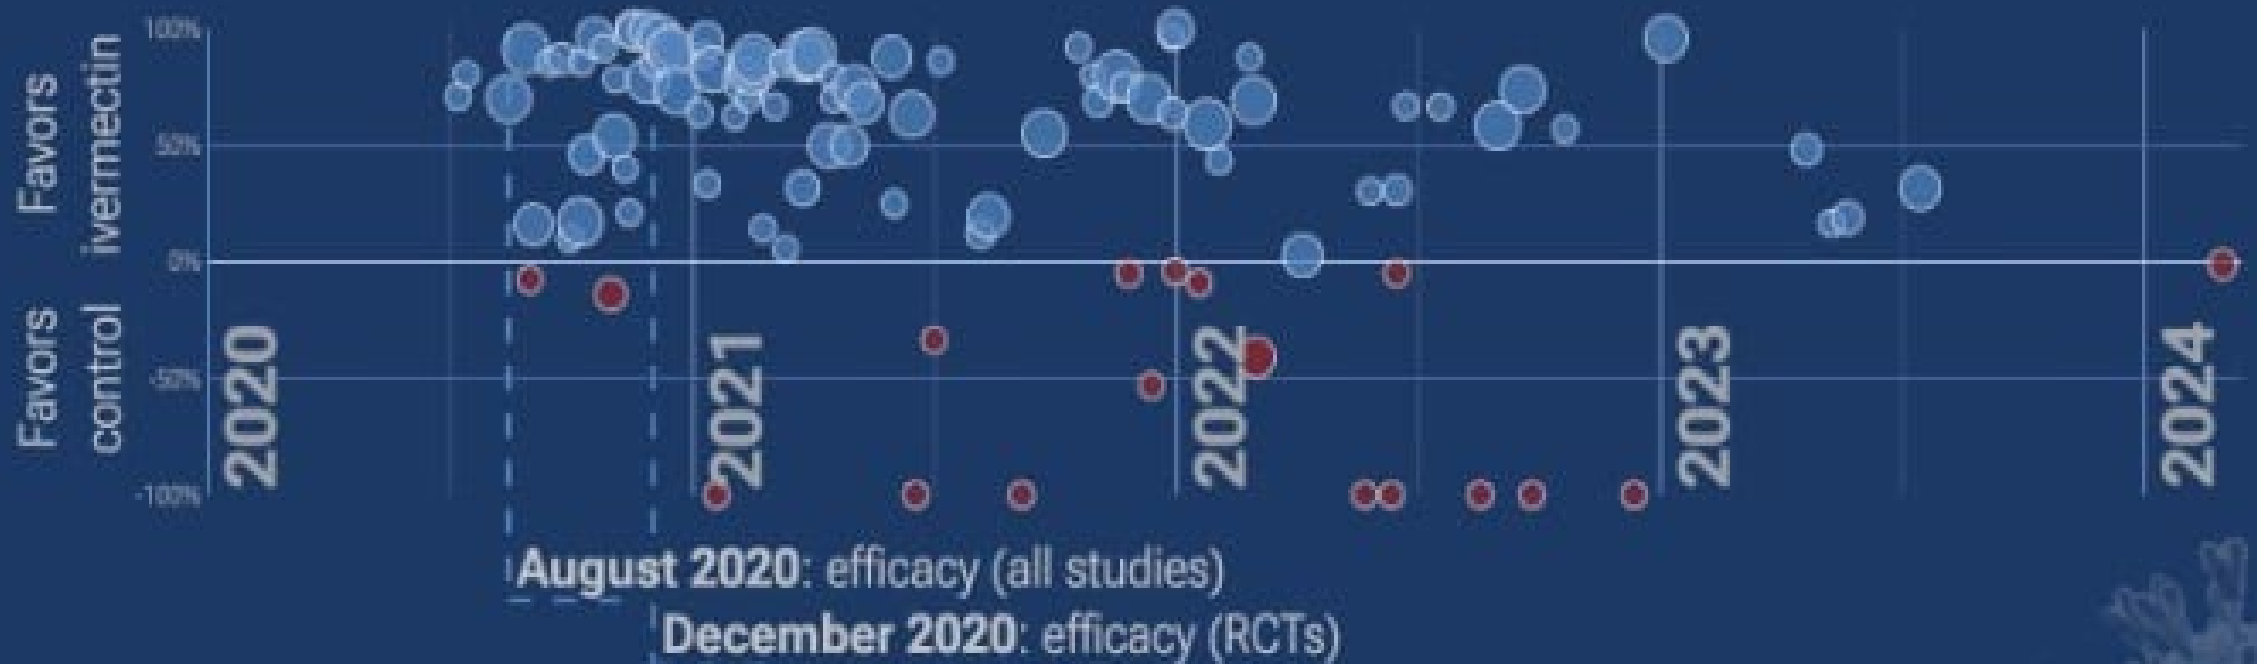

This was a very controversial statement at the time since the FDA pushed the drug on African migrants back in 2015 and the drug was praised in several scientific journals.

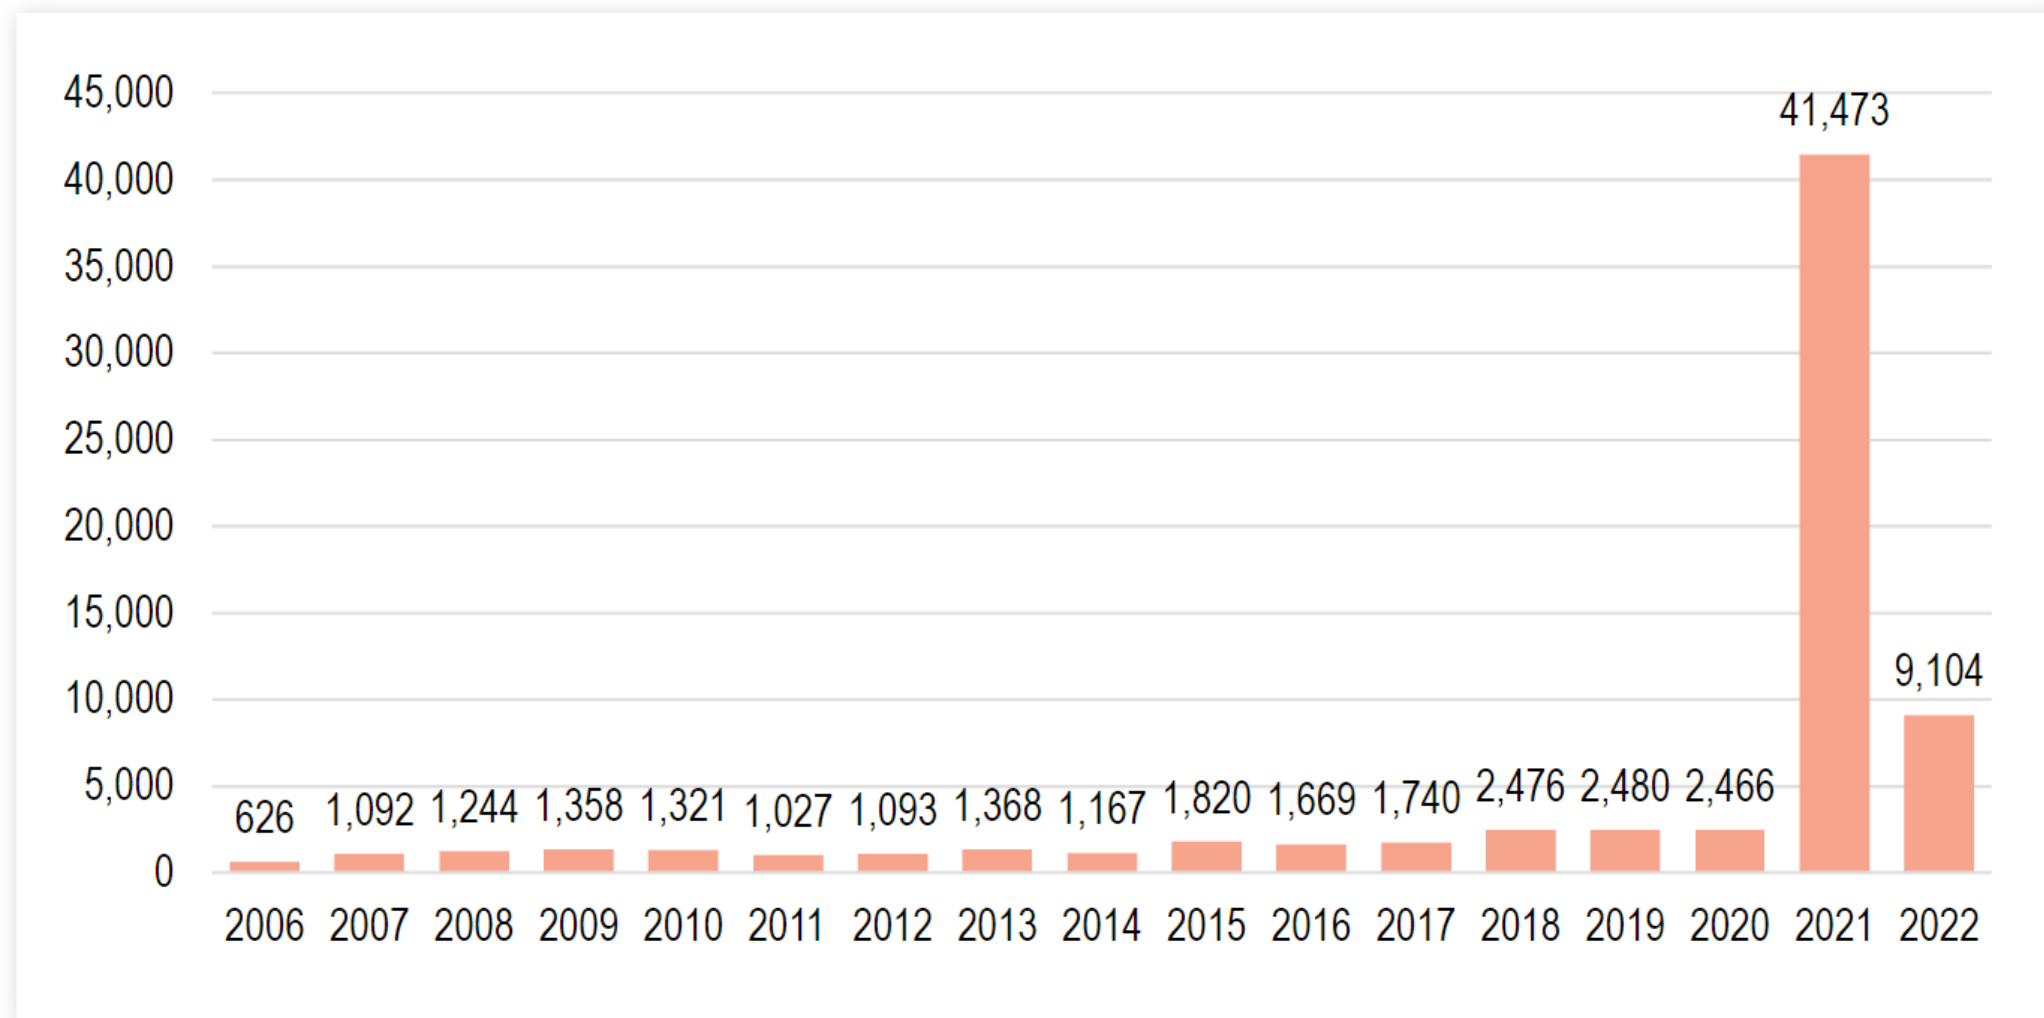

Despite this the US government condemned its use for COVID-19. And the government is now responsible for killing tens of thousands of Americans who did not have to die.

Poll Shows Widespread

## Poll Exposes Widespread Voter Fraud in the 2020 Election

By **Jim Lakely**

Published **December 14, 2023**

In December 2023, The Heartland Institute and Rasmussen Reports released two polls in which voters who cast mail-in ballots admitted to widespread voter fraud and that President Trump and others who questioned the legitimacy of the 2020 election should face harsh punishment.

## TALKING POINTS

### THE PROBLEM

- In November and December of 2023, The Heartland Institute and Rasmussen Reports conducted a landmark survey of voters that found one-in-four mail-in ballots could have been cast illegally in the 2020 presidential election.
- Among other results, the survey found ...

**17%** mail-in voters admitted to voting in state where they are no longer a permanent resident”

## TALKING POINTS

### THE SOLUTIONS

- The best way to prevent mail-in balloting is to require all voters who are physically able to vote in person to do so.
- A second good approach to limiting mail-in ballot fraud is to mandate that mail-in voters have their ballot signatures verified by a notary. A notary is a public official who has been trained and authorized to approve the validity of signatures and the identities of those signing documents.

*Here's How to Stop It in Future Elections*

<https://heartland.org/wp-content/uploads/2024/02/2024-PTS-Election2020-1.pdf>

In November and December of 2023, The Heartland Institute and Rasmussen Reports conducted a landmark survey of voters, which former President Donald Trump called “the biggest story of the year” and “the most important poll released in the last 20 years.”<sup>1</sup> According to the results of the survey, a massive number of voters who cast ballots by mail admitted to committing at least one form of voter fraud in the 2020 election.

Some of the most important findings from the poll include:

- Seventeen percent of mail-in voters admitted that in 2020 they voted in a state where they are “no longer a permanent resident.”
- Twenty-one percent of mail-in voters admitted that they filled out a ballot for a friend or family member.

**“The reasons behind the widespread voter fraud discovered in our survey are likely many and varied, but they share at least one commonality: mail-in voter fraud**

yielded a result of 21 percent, creating a floor for mail-in fraud in the election.<sup>3</sup>

In a subsequent, comprehensive report, published in January 2024, Heartland’s Jack McPherrin, Chris Talgo, Donald Kendal, James Taylor and I published a more detailed study about the Heartland/Rasmussen voter fraud survey.<sup>4</sup> After receiving the raw survey data from Rasmussen and engaging in a thorough review, we were able to determine that the poll showed more fraud than we initially reported, a conclusion that has since been confirmed by Rasmussen. We determined that 28.2 percent of respondents who voted by mail admitted to at least one kind of voter fraud, which means that more than one-in-four ballots cast by mail in 2020 could have been fraudulent, not one-in-five, as we initially asserted.

Our report further showed that if one applies the results of our survey

<https://www.cartercenter.org/news/pr/2020/united-states-050620.html>

“The nonpartisan 2005 Commission on Federal Election Reform, co-chaired by former U.S. President Jimmy Carter and former Secretary of State James A. Baker III, noted among its many findings and recommendations **that because it takes place outside the regulated environment of local polling locations, voting by mail creates** increased logistical challenges and **the potential for vote fraud, especially if safeguards are lacking or when candidates or political party activists are allowed to handle mail-in or absentee ballots.**” (Bold added)

**Donald J. Trump** ✓

@realDonaldTrump

THE MOST IMPORTANT POLL RELEASED IN THE LAST 20 YEARS CAME OUT YESTERDAY STATING THAT 20% OF THE MAIL IN BALLOTS IN THE 2020 PRESIDENTIAL ELECTION WERE RIGGED OR DEFECTIVE. THAT MEANS THAT THE ELECTION WAS A GIANT SCAM. YOU CANNOT HAVE A FAIR AND HONEST ELECTION AS LONG AS THERE ARE MAIL IN BALLOTS. CHEATING WILL ALWAYS BE PREVALENT. FRANCE, AND MANY COUNTRIES, HAVE STOPPED THE MADNESS. THE REPUBLICAN PARTY MUST DO SOMETHING NOW!!!

**Tucker Carlson**

@TuckerCarlson

Ep. 75 The national security state is the main driver of censorship and election interference in the United States. "What I'm describing is military rule," says Mike Benz. "It's the inversion of democracy."

Here are some of my notes from Tucker Carlson's interview of Mike Benz, now of The Foundation for Freedom Online <https://foundationforfreedomonline.com/>

In 1948 our CIA stopped the Communists from taking Italy in elections, by stuffing ballot boxes, stopping the Communist take over of much of Europe....

I was only 8 years old at the time, in 3d grade

DOD, State, CIA, NSA, MSM had been the mechanism to control thoughts, pre-Internet years.

The High-Water mark of Internet Freedom was the Arab Spring of 2012.

Free Speech (esp. in foreign countries) was an instrument of US state security for many years.

The ["Vote" in Crimea to Join Russia in 2014](#) was the crisis that led to the decision to execute "Information Operations" instead of military force, so as to topple governments through news and social media.

The UK's BREXIT Vote in 2016 led to NATO Charter change to embrace Hybrid Warfare to counter right-leaning groups' increasing popularity and growing strength.

## Propaganda in the United States

In the United States, [propaganda](#) is spread by both government and non-government entities. Throughout its history, to the present day, the United States government has issued various forms of propaganda to both domestic and international audiences. The US government has instituted various domestic propaganda bans throughout its history, however, some commentators question the extent to which these bans are respected.<sup>[1]</sup>

In *Manufacturing Consent* published in 1988, [Edward S. Herman](#) and [Noam Chomsky](#) argue that the [mass communication media of the U.S.](#) "are effective and powerful ideological institutions that carry out a system-supportive propaganda function, by reliance on market forces, internalized assumptions, and [self-censorship](#), and without overt coercion".<sup>[2]</sup>

### Domestic  [\[ edit \]](#)

*Politico* noted the ineffectiveness of domestic propaganda bans. "Officials get around the restriction on publicity agents by giving public relations staff such titles as "health communications specialist" or they outsource the spinmeister work to private communications firms. During an effort to cut back on PR in the administration of Harry Truman, the Air Force even classified some public affairs officers as chaplains."<sup>[1]</sup>

# SIDEBAR: In the USA, and elsewhere, What is Propaganda?

From Wikipedia, the free encyclopedia,

[https://en.wikipedia.org/wiki/Propaganda\\_in\\_the\\_United\\_States](https://en.wikipedia.org/wiki/Propaganda_in_the_United_States)

In the United States, propaganda is spread by both government and non-government entities. # SIDEBAR: In the USA, and elsewhere, What is Propaganda?

My opinions:

Seems as if frequently, there are no obvious distinctions between objective truth & propaganda, especially that which comes from Government sources.

Seems to me that in the Society there are frequently different value judgements rather than objective truth to deal with. Example:

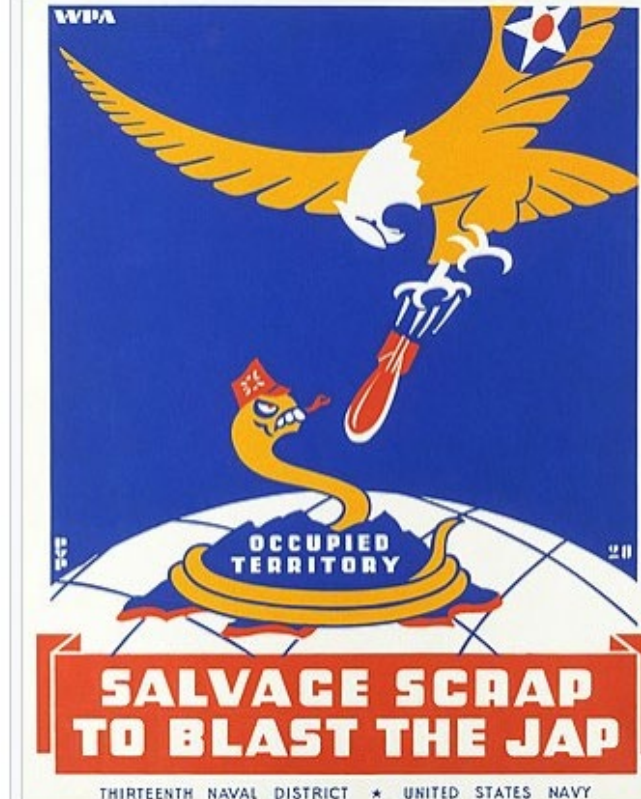

How do we get military-age youth, especially young men to volunteer for military duty?

To argue that it is a necessity for the Nation to survive...

That the Nation is a Force for Good in the World.

That US Armed Forces are the “Good Guys” in an imperfect world.

These decisions are best made by the individual, and hopefully those with a sound home environment and an educated mind, able to engage in critical thinking skills.

An American propaganda poster from [World War II](#) produced under the [Works Progress Administration](#)

Are these possible today?  
It seems doubtful.

# SIDEBAR: In the USA, and elsewhere, What is Propaganda?

Again, my opinion, examples of propaganda, often by political leaders and their minions.

Public Service Announcements by the State of New Mexico that children and school-age youth need “vaccination” against the COVID-19 virus. My view: it is an experimental drug, not a vaccine.

Statements by Public Health Agencies & Organizations that the “Vaccine is Safe and Effective”

[World Health Organization](#)

[National Institute of Health](#)

[Centers for Disease Control and Prevention](#)

In the past several years, we in CASF, many others, have been a strong voice saying that there is no evidence that human use of hydrocarbon fuels with increasing <CO2> is in any way harmful, e.g.,

<https://casf.me/continuation-of-present-warming-not-an-existential-threat/>

but social media try to censor our words and thoughts: <https://casf.me/facebook-censorship-of-casf/>

Media, others, use name calling: “Climate Deniers,” just as in the past “Holocaust Deniers” was/is used.

Back to the Tucker Carlson interview with Mike Benz...

Rick Stengel was nominated by Obama, then confirmed, as Undersecretary of State for Public Affairs (speaker to the world on behalf of the USA.)

Rick Stengel ran the Global Engagement Center in State, under Obama. They developed AI-aided network center, ('Who and How adversaries are communicating over the Internet,' originally to counter ISIS). They became State's Censors.

State's Censors left to Join the Atlantic Council after Hillary was defeated in 2016. They developed automated censorship (of opposing views) using computational linguistics ("Weapon of Mass Deletion").

In 2017 they started, with the organization of a permanent domestic censorship function of State Department, Atlantic Council and Homeland Security offices, a "whole of society" "counter- disinformation, alliance."

Specifically, it was an online domestic censorship operation of the Government to put pressure on Social Media and NGOs.

This used powers to overthrow governments developed by the CIA and the domestic overview functions of the FBI and put them into CISA, in Homeland Security: the Cybersecurity and Infrastructure Security Agency.

With CISA in place in Homeland Security, Tweeting or posting online about the problems of mail-in ballots was construed to be a cyber attack on critical infrastructure, viz., elections, and subject to extreme sanction of such individuals' and their actions. (~37:45 mark)

The :37 to :46 block tells how this operation was able to strong-arm social media operators into censorship of any post or content which pointed out that abuse of mail in ballots could manipulate the 2020 election outcome, a Government function specifically prohibited in the First Amendment.

**Through threats of Government punishment, CISA coerced the social media operators into censoring posts describing Trump's warnings of such, and they bragged about it!**

Continued from the previous...

In the 2020 election, these tools were used by the Pentagon to directly censor by deleting many thousands of posts regarding COVID contrarians and Mail in Ballot fraud potential. (~31 min mark of the Tucker Carlson interview of Mike Benz ).

Think about it...

CISA, the Cybersecurity and Infrastructure Agency, using their powers to ostensibly prevent cyber-driven attacks on critical US infrastructure, specifically our elections, then used that power to attack free-speech advocates who warned us about the abuse of mail-in ballots.

CISA then was used to strong-arm social media organizations and directly mass-delete posts and forwarded posts, which were warning of such election fraud potential.

Our own government actors, the Deep State, meddled in the 2020 elections to delete Donald Trump's posts.

That's how I see important parts of the Tucker Carlson interview of Mike Benz, but there is much more at the video itself:
